

Health Shopper

Health Shopper is an e-commerce website designed around shopping for FSA and HSA eligible items and purchasing via amazon.com. It is the easiest way to learn about, shop for, select, and purchase FSA and HSA eligible retail items.

Health Shopper gives you the ability to search for a wide array of FSA and HSA eligible items. It allows you to shop for those eligible items you need as well as learn about and discover products you may not know were eligible or existed. **Health Shopper** accomplishes this by delivering a custom curated product list, with seasonal recommendations, topical content and superior search functionality. Further, **Health Shopper** will continually highlight coupons and special deals on eligible products.

You can continue to utilize value added benefits from Amazon that you love, such as an Amazon Prime membership (which includes free shipping). There is no additional cost to use **Health Shopper** and your Benny Card can be used for the eligible purchases you make from amazon.com. You can view specific products highlighted on the **Health Shopper** site, or click the banner links (like the one below) on the bottom of many **Health Shopper** pages to browse Amazon's FSA | HSA Store and explore thousands of eligible items.
