Preview:

The image shows a preview of an email. At the top is a blue header with a white icon of three interlocking gears, one containing a dollar sign. Below the icon are three dots and the text "2 ways to simplify your account experience". The main body of the email is white with a light blue border. It starts with the text: "Want to make your Sentinel account experience just a little bit easier? Here are two mobile tools that can help:". This is followed by a section titled "1. Download the Sentinel app." with a sub-header in blue. The text describes the app's features and where to download it. Below this is a blue button with white text: "DOWNLOAD THE MOBILE APP". The next section is titled "2. Add your Sentinel Benny Card to your mobile wallet." with a sub-header in blue. The text explains how to add the card to a mobile wallet. Below this is another blue button with white text: "HOW DO I ADD MY CARD?". The final section is titled "Pro Tip: Create a virtual shoebox!" with a sub-header in blue. The text explains how to use the app to create a virtual shoebox of expenses for reimbursement.

Want to make your Sentinel account experience just a little bit easier? Here are two mobile tools that can help:

1. Download the Sentinel app.
Check account balances, submit claims by taking a picture of a receipt, save expenses for later, manage your Benny Card, and more! Search "Sentinel (FSA HRA HSA)" app in the Apple App Store or "Sentinel Reimbursement Accounts" app in the Google Play store.

[DOWNLOAD THE MOBILE APP](#)

2. Add your Sentinel Benny Card to your mobile wallet.
Like many financial cards, your Sentinel Benny Card can be added to your mobile app wallet! Hold your phone near card readers with this feature to eliminate the need to present your physical card. To add, simply follow the steps you'd take to add any card to your wallet. Once added, the card will appear in your wallet like a more generic version of your Benny Card (colored gray instead of blue-green), labeled "Benefits Card".

Pro Tip: Create a virtual shoebox!
If you ever cannot use your Benny Card, or simply want to save a receipt to reimburse yourself later, the Sentinel app is the perfect solution! Open your app, tap "Manage Expenses", and "Create New Expense".
By doing this, you're creating a virtual shoebox of qualified expenses that you can apply for reimbursement against down the road.
